The software is maintained and periodically upgraded by the consultancy firm Meshilogic, Calicut (https://www.meshilogic.com/) The College has procured online TCS software for academic administration, attendance entry, timetable setting, preperation of internal marks, student profiling and continuous internal evaluation. Access to ejournals and ebooks are provided by the NLIST and Mar Thoma College digital library. The library is automated using LIBOSOFT which is Windows based integrated library management software. It has features like multi user facility application friendly, simple to operate. LIBOSOFT can manage all the library routines like book accession, multimedia accession, classification, cataloguing, circulation, accession of journals indexing online searching. LIBOSOFT supports 21st edition (1996) of Dewey Decimal Classification Scheme. Under the LIBOSOFT software there is a provision to create the spine of the book including book card. Barcoding of the reader's ticket and the generation of the print out through LIBOSOFT help to manage the circulation of the resources in an effective and meaningful manner. The resources in the College library have been automated since 2015 using LIBOSOFT version 2.1</p>

CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

1. PREPARATION OF THE ACADEMIC CALENDAR AND PREPARATION OF TEACHING PLAN: The academic calendar is prepared on the basis of the schedule provided by the University. The academic calendar is prepared by the IQAC and finalised by the College Council (Staff Council). The same is published in the College calendar and the handbook and made available to the faculty and students. The teaching plan on the basis of the academic calendar: The teaching plan contains details of courses to be taught, allocation of workload, details of seminars, assignments, etc. The teaching plan is prepared by the faculty and countersigned by the respective Head of the department. 2. CURRICULUM DELIVERY MONITORING The curriculum delivery is monitored through a special mechanism entitled curriculum delivery monitoring. It is in the form of a register which has been made available among the class teachers to record the details of, a) classes engaged b) regularity of curriculum delivery and c) the remarks of the class teacher 3. PERIODIC ANALYSIS Periodic faculty meeting at the department level and also at the College level evaluates the delivery of curriculum based on the details furnished in the curriculum monitoring register. It analyses the extent to which classes were engaged, syllabi were completed and evaluations were made. 4. REMEDIAL CLASSES Remedial classes are arranged at the department level on areas where the students need extra help or portions which are lagging. 5. INTERNAL ASSESMENT MECHANISM The effectiveness of curriculum delivery is assessed through class tests, internal examinations, practicals, etc. The class tests and internal examinations help to chart the academic progress of students and also the effectiveness of academic delivery. 6. CLASSIFICATION OF LEANERS Students are classified into slow, average and fast learners depending on performance in the internal assessment. Slow learners are given remedial coaching. Special classes are arranged on Saturday and zero hours. 7. ACADEMIC AUDIT The IQAC initiate an academic audit at the end of every semester to analyse the portion completed record of remedial classes taken and students feedback. 8. TEACHERS DIARY Teacher's diary is another instrument for administering, monitoring and documentation of curriculum delivery. The diary can be used as a personal academic register for the faculty members to record the engagement of classes, participation in all academic, examination and research activities, and also co-curricular engagements, extension and consultancy

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

The learning process has been made more student-centric through different experimental processes. The creation of a new educational culture with emphasis on self learning is one of the main objectives of the student-centric methods. A shift from the conventional teacher-centred lecture method to a student-centric approach is followed through a continuous and ongoing learning process. The following specific strategies have been followed by the College in this regard. Students are encouraged to collect, process and manage information through the internet, text books and other published works. Internet facility is made available in the library,

computer centre, research centres and in all the departments. Students can collect data on academic topics, general issues, and current events in keeping with the curriculum and syllabi. In the PG classes presentations are made by the students on the topics assigned to them by the faculty. They make power point presentations and learning charts. This imparts experience in the preparation, editing and presentation of learning material and data. In UG classes advanced learners are encouraged to assist in the learning process of the slow learners. In the curriculum of the UG and PG Programmes, participative learning has been incorporated. Students are encouraged to visit online sites of the relevant topics and areas to gather learning materials for presenting them in the class room. Faculty members supplement and enrich the presentations to make it more participative and interesting. Facilities such as E-learning, virtual lab, online courses, field visits, field surveys, etc. are available to make the learning process more experimental and innovative. Students are given necessary skills in the use of scientific equipments and instruments for demonstrative learning purposes. Training in water quality test, soil test, blood test, first aid, pain and palliative care, etc are provided which enables them to apply the knowledge and skill in daily life. Different types of problem solving methodologies are applied in the teaching-learning process. Acquisition of skills and necessary training for application in higher learning is followed through field studies, surveys and exhibitions. In field surveys, students apply the skills of obtaining, processing and editing, and publication of data. Derivation of inferences enables the application of logical thinking and reasoning. Field surveys and studies have been incorporated into the learning framework of the students. Exhibitions provide an opportunity to come up with innovative methods of problem solving. Student-centric methods such as interactive discussions, peer presentations and tutorials make the teaching-learning process more effective and meaningful. In the interactive discussion process, students are given a catalyst role. In the tutorial sessions, students are given more opportunities to conduct the curricular and co-curricular programmes in the classrooms. Students are encouraged to reflect on their learning outcomes through different techniques such as project presentations, organisation of programmes, presentation in competitions, writing of articles and also publication in manuscripts. Nominating students to manage academic meetings of subject associations, discussion forums, etc also provide a participative and a problem solving platform to students for enhancing the learning experience.

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

The College follows the mandatory system of continuous internal evaluation. Attendance, internal examinations, assignments and submission of seminars are the four components of continuous internal evaluation. Following are the reforms initiated at the College level to make it more effective and transparent. A mechanism has been evolved by the College to organise and manage the internal examinations on one hand and to oversee the continuous evaluation process on the other. The examination committee, the attendance committee and the grievance redressal committee have been constituted to make the continuous evaluation process systematic, regular, centralised and effective. The College organises two internal examinations for each semester in a centralised manner. The examination notifications are issued and schedules are published for the information of the students and faculty. The period of examination, submission of question papers, distribution of valued answer scripts and the submission of grade/ mark cards are announced in advance to make adequate preparations. Online submission of question papers by the faculty has been introduced. The exam mail id is exams@marthomacollege.org A mechanism to monitor the implementation of the examination has been developed. IQAC monitors the valuation process, distribution of answer sheets and also the submission of mark lists. It ensures proper and timely conduct of examinations. The communication of examination results to parents is through the class-wise PTA. The PTA is convened immediately after the declaration of the results of the internal examinations. A proper system has been devised to monitor the attendance of the students. The attendance committee functions in the College for overseeing the compilation of attendance. The attendance statements are periodically published and grievances are redressed. The topics of assignments and seminars for each student are given in advance for timely preparation, submission and presentation. The details of topics for the seminar and the assignments, date of submission and presentation, and marks/grade awarded are noted in the teacher's diary. The publication of forms A and B of the continuous evaluation in a centralised manner is an innovative reform initiated by the College to make the evaluation process more accountable, meaningful and transparent. A mechanism for grievance redressal related to the continuous internal evaluation has also been put in place by the College. Under this system, students are asked to sign the statement of the internal assessment. They are given sufficient time to present grievances if any and it is addressed by the concerned faculty/department. The internal evaluation results are communicated to the parents by the concerned class teacher. Training is also given to students in areas such as seminar and assignment preparations and project presentations. In the project and seminar presentations, students are encouraged to make use of ICT enabled techniques. Projects and seminar presentations with the help of LCD projectors constitute an integral component of internal assessment. Model viva-voce are also organised to acquaint the students with the process of end semester vivavoce examinations.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

The continuous internal evaluation is a mandatory process to be fulfilled by the College for both UG and PG programmes. The College prepares an academic calendar on the basis of the University academic calendar for the effective implementation of continuous internal evaluation. The academic calendar contains schedules of the two internal examinations for each semester and the submission of forms A and B. The internal examinations are conducted as per schedule and it is overseen by the examination committee under the leadership of a senior faculty member. The College follows the schedule given in the academic calendar to convene the Department Level PTA meetings to communicate the result of the internal examinations. A time schedule is followed by the

College for the publication of attendance statement, which is one of components in the process of continuous evaluation. An online portal TCS (Total Campus Solution) has been made available for the entry of attendance and for publishing the monthly statements of attendance. In the continuous evaluation process, submission of assignments, presentation of seminars, class tests, and discussions are also important. The schedules of these activities are given in advance and attempts made to follow the same. The form A containing the grades or marks for each component in the internal evaluation and form B, the consolidated marks or grade of students for the internal evaluation are published as per the given schedule. Efforts are made by the College to strictly comply with the academic calendar for all activities including the continuous internal evaluation.

The College has a system for the optimal utilisation and maintenance of physical and infrastructural facilities. The Governing Council appoints a Treasurer and constitutes different committees such as - finance committee, building committee, etc to create additional facilities and to ensure the optimum utilisation of academic, administrative and physical infrastructure. The finance committee prepares the annual budget and presented in the Governing Council for discussion and adoption. The building committee looks into the status of the existing buildings, requirements for new classrooms and buildings, upgradation of building facilities, etc. The College has a Management office for overseeing the construction and maintenance work. The Management office has three staff members under the supervision of the Treasurer of the College and the Principal. The ICT coordination committee monitors the functioning of computer labs, procurement of systems, upgradation and maintenance of computer facilities. A senior faculty is appointed as the convener of the ICT coordination committee. The Management office renders the following services for the better utilisation of available facilities: Prepares annual budget for construction, maintenance and upgradation of academic and physical infrastructure and support services. Construction and maintenance work in the College are carried out under the supervision of the Management office which also allocates fund for the same. The College office under the supervision of the senior superintendent oversees the daily maintenance and upkeep of the class rooms and other facilities. The College has a consultant engineer, a supervisor and qualified technicians for attending to the maintenance work. The maintenance works are undertaken on the basis of his report. Electrical and plumbing works are carried out by trained technicians appointed by the College. The work supervisor oversees the maintenance work carried out in the College and the hostels. The College follows an open tender system for construction and maintenance work. The College Council prepares the blue print for optimal utilisation of existing resources. The council has constituted a committee for space utilisation to ensure better utilisation of the available facilities for curricular and co-curricular programmes. Academic Review Committees are periodically appointed by the College to examine the availability and utilisation of the existing infrastructure for administering the various programmes. The committee consists of academic experts who visit the College, departments, labs, library, sports and other support facilities to review the current utilisation and also to make suggestions for better utilisation. The Annual Maintenance Contract (AMC) is followed by the College for the maintenance of lab equipments and IT facilities. A register for maintenance work is kept in the Management office for recording the requirements of maintenance in the departments and support services. Measures are initiated to rectify them. The College has a Purchase Committee as per the direction of the UGC and State Government for the procurement of the equipment for laboratories, library and also for the office and the departments. The library committee monitors the availability and utilisation of library

infrastructure and upgradation of library facilities. The College has therefore an established system for maintaining and utilising the available facilities

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

The College has a student council called College Union. It is an elected body consisting of the following members: 1.Chairman 2.Vice Chairman 3.General Secretary 4.Arts Club Secretary Page 67/123 15-08-2019 12:47:56 Self Study Report of MAR THOMA COLLEGE, TIRUVALLA 5.Magazine Editor In addition, representatives of lady students and class representatives of both UG and PG programmes are also included in the College Union. The College Union has a staff advisor nominated by the Staff Council of the College. The meeting of the Union is held regularly to undertake following activities: Organizing students on a non-party basis for curricular and non-curricular programmes. Arranging non-curricular activities and programmes such as arts festival, film-festivals, women's day, annual sports and other competitions. The views and opinions of students on academic matters, facilities and support services are obtained and communicated to the authorities by the College Union. Representing the requirements of the student community in College forums like the Governing Council and Staff Council. The Union represents the student community in the discussions and programmes organised by the Government. The College has constituted a number of clubs and associations to ensure participation of students in curricular and co curricular programmes and activities. Students have a key role in the organization and functioning of clubs and associations such as the Brains Trust, Tourism Club, the National Service Scheme, Subject Associations, PG Association, Science Forum etc. Students are the conveners of several committees of the College and they have a pivotal role in administering and implementing programmes of such committees/clubs. The representatives of students are included in the consultative committee on students affairs constituted by the College for discussing issues concerned with students. The representatives of the student community are also included in the Director Board of the College Cooperative Society. There are 4 students representatives in the 11 member Director Board of the society

5.4 – Alumni Engagement

5.4.1 – Whether the institution has registered Alumni Association?

Yes

The College has a strong Alumni Association with chapters in different parts of the world. They contribute liberally for the development projects of the college. The college keeps up relations with the Alumni through regular publication of the Alumni News. Various chapters also have their own news bulletins.

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

The College follows a mechanism of decentralization in the administrative and

academic functioning of the College for implementing the policy of participative management. The College is administered by a Governing Council consisting of a Chairman (one of the Bishops) and 10 members. In order to have effective administration, the Governing Council has constituted different committees to decentralize powers and functions. The Finance Committee is authorized to discharge financial powers and responsibilities such as introduction of budget, resource mobilization drive and overseeing the income and expenditure of the College. The Building Committee has been provided with the powers and functions to chalk out construction programmes, maintenance work and estate management. The Hostel Committee is authorized to look after the functioning of the women's hostels and take Page 73/123 15-08-2019 12:47:59 Self Study Report of MAR THOMA COLLEGE, TIRUVALLA decisions which ensure the smooth running of the hostels. The ICT Coordination Committee has been authorized to manage the working of computer labs and IT infrastructure of the College. The day to day functioning of the College is looked after by the Principal, who is advised by a College Council consisting of the Heads of the departments and elected members of the faculty. In order to make the administration decentralized and participative, over fifty clubs and associations are constituted by the College Council (Staff Council) with faculty members as Chairman or Director. The clubs or associations introduce curricular and co-curricular programmes to promote learning, talents and soft skills of students. The College also has a staff association for the faculty and a non-teaching staff association for administrative and supporting staff. The academic and administrative decisions are made by the Principal through the process of consultation and discussion with the Governing Council and the College Council. The policy decisions are framed by the Governing Council. The administrative and academic matters are reviewed by the College Council at its regular meetings which advises the Principal on the concerned matter. The Principal delegates authorities to the Heads of the various departments in managing the academic and administrative matters of the concerned departments. Department meetings are held regularly to frame the teaching plan and the academic calendar of the department. It reviews the progression of the Programmes and provides suggestions for giving special assistance for slow and advanced learners. The teacher-in-charge oversees the academic matters and the maintenance of discipline in the concerned class. The teacher keeps an academic delivery monitoring register to evaluate the progress of the movement of syllabus and classes engaged. The class teacher also manages tutorial sessions. The activities of departments are overseen by the HoDs and it is their responsibility to manage the affairs of the department. A system of decentralization and participative management is therefore at the center of the functioning of the College.

6.1.2 – Does the institution have a Management Information System (MIS)?

Yes

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Teaching and Learning	Keeping pace with the emerging trends and challenges in the field of higher education, the Internal Quality Assurance Cell (IQAC) of the College has drawn up a perspective plan for the overall development of the College to meet the requirements of the next ten years. The perspective plan has been prepared in consultation with the

Governing Council, the College Council and the faculty, in confirmity with the vision and mission of the College, recommendations of the NAAC Peer team and the observations of the academic review committees appointed by the Management. The frame-work of the plan is inclined Page 74/123 15-08-2019 12:47:59 Self Study Report of MAR THOMA COLLEGE, TIRUVALLA towards the development of the institution, to sustain and enrich quality for academic excellence. The areas identified by the strategic plan to transform the institution into a centre of excellence include introduction of vocational programmes, job oriented courses, upgradation of facilities, modernisation of infrastructure, introduction of community services, industry partnership, collaborative research and commencement of comprehensive green initiatives. The following steps have been initiated by the College to implement its strategic plan: An additional B.Com. Degree Programme was started in 2014 (B.Com. Finance and Taxation) and seven academic enrichment programmes were introduced in 2017 for imparting employable skills. A regional fungal herbarium (MTCHT) and Marthoman Laboratory for Fungal Systematics and Molecular Taxonomy were set-up in 2017. An Online learning platform - Learner's Excellence in Academic Pursuits (LEAP) - was launched in 2016 for offering online courses. A new academic block which houses six classrooms, a new Tower Block which houses the Mathematics research centre and the career guidance centre and the Joseph Marthoma Interdisciplinary Research Centre and E-learning room were constructed in 2014. ICT facilities were augmented with seven Smart class rooms, 194 Computers, 36 LCD Projectors, an E-learning room, a public address system, a video display board, 24x7 CCTV surveillance system, online TCS for administration, WiFi enabled Campus and Internet facility for faculty, students and researchers. The institution has commissioned a High Tension Power generator, LED and Solar Street Lighting, incinerator units, rain water harvesting facility and RO plants for drinking water. Centralised

internal examination and evaluation, and Value based education were strengthened through tutorial sessions. Santhivannam, Orchidarium, RET plant conservatory and Model Medicinal Plant Garden were setup. As the part of the strategic plan, the College proposes to augment academia-industry tie-up by commencing new courses having potential for skill development and employability. It is the goal of the institution that the entire faculty have doctoral degrees, to have partnership in research, start up activity and specialised centre for extension and continuing education and also a state-of-the-art academic cum research block to house the research labs of Physics, Chemistry, Botany and Zoology.

6.2.2 – Implementation of e-governance in areas of operations:

6.4 – Financial Management and Resource Mobilization

6.4.1 – Institution conducts internal and external financial audits regularly (with in 100 words each)

The College has a mechanism for internal and external financial audit. The internal audit is entrusted to a registered firm of chartered accountants appointed by the College for each financial year. The accounts are externally audited by the Department of Local Fund Audit and the Office of the Accountant General of India with respect to the Government/UGC fund. In the case of Management funds, registered chartered accountants are appointed by the College for external audit. The internal and external audits are undertaken annually and the auditor's reports are presented before the College Governing Body with their remarks for discussion. The audit objections and the corresponding remarks are addressed by the office of the Management and timely and proper clarifications are presented to settle the audit objections. The audited statements of accounts along with the auditor's report are presented in the meetings of the College Governing Council for discussion. The audited statement of accounts is also published in the official annual report of the Church.

7.1.7 – Initiatives taken by the institution to make the campus eco-friendly (at least five)

The College aims to develop a campus which is greener, cleaner, safer and a healthier place to learn and work by redefining its environmental culture and developing new paradigms. The following practices are followed by the College in this regard: As the College is situated very close to the railway station and the main road, over 80 of the staff and students depend on the public transport system for commuting. The Kerala State Road Transport Corporation operates transport services from town to the College in the morning and evening. Private buses also operate services from distant places to the College. Students residing near the college use bicycles or walk to the college. The College encourages students to use public transport system and organizes programmes on environmental conservation. Students are taught about Carbon Credits and Carbon Neutrality. Regular cleaning of the camps and planting of trees ensure carbon neutrality. Programmes like Swachh Bharat Abhiyan, Dry Day, etc. are observed to maintain a clean campus. The Illumination and ventilation in classrooms are adequate considering natural light and air velocity. The noise level in the campus is well within the limit i.e. below 50 dB at daytime. The installation of biogas plants at hostels, automation in the College office and Departments to curtail

Page 93/123
15-08-2019 12:48:09 Self Study Report of MAR THOMA COLLEGE, TIRUVALLA paper work, and composting practices are also followed to make the campus green and tidy. The architectural structure of the College fulfills passive climate control measures like shading, optimum orientation, optimized day lighting,

courtyard planning, cross and stack ventilation and evaporative cooling have been integrated intelligently in the design which help achieve considerable thermal comfort even during peak summer afternoons. Plastic free Campus: Plastic items are not encouraged in the College campus. E-banners, Cloth banners and chart paper posters are used for seminars, workshops, and other such programmes conducted in the College. Paperless Office: All kinds of paper waste are given for recycling. Usage of paper on campus is minimized and printing is done on both sides. E-mail and other electronic communication methods are largely used for inter-house communications and also for communication with the Government and with the University. Green landscaping with trees and plants: The Campus has around 486 species of plants including herbs, shrubs and big shady trees. This provides home to flora and creates a heaven for the nesting birds, butterflies and other animals like squirrels, palm civets, lizards, etc. The College has initiated a tree plantation program among the students, faculty and local community, through the distribution of saplings of fruit and shade trees etc. to promote an eco-friendly environment.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

1.1 Title of the practice: Monitoring of Academic Delivery 1.2. Objectives of the practice: Education par excellence is the motto of the College. The curricular and co-curricular programmes have been designed to improve the knowledge, skills and personality traits of the students. By keeping in mind the significance of academic delivery in the teaching-learning process, the College has devised a mechanism named Academic Delivery Monitoring with the following specific objectives. To streamline the teaching-learning process in a more meaningful and effective manner. To enable the class teacher to monitor the progress of the teaching process. To ensure timely completion of the syllabus. 1.3. The Context: The Academic Delivery Monitoring has been initiated in the context of restructuring of the UG and PG Programmes in the Credit and Semester format. Under the restructured system the duration of a semester is 90 days with varying contact hours for Core, Common, Complementary and Open Courses. The timely completion of syllabus in the context of hectic curricular and co-curricular programmes and varying contact hours has become a challenging task requiring innovative practices and strategies to tide over the time constraint. The mechanism of academic delivery monitoring has been introduced to ensure administration of the programmes in a more effective, meaningful and time bound manner. 1.4. The Practice: The College has evolved a mechanism under the academic delivery monitoring system to monitor both the teaching process and the completion of the syllabus with the help of two registers Teacher's Diary and Register for Academic Delivery Monitoring. The Teacher's Diary documents all the day-to-day academic work of a faculty member. It has the provision to note the classes engaged for the courses assigned, special classes engaged, tutorials and mentoring initiated, class tests and internal examinations, seminars and assignments to be given Page 100/123 15-08-2019 12:48:14 Self Study Report of MAR THOMA COLLEGE, TIRUVALLA to students, etc. The format to prepare semester-wise teaching plan has been provided in the Teacher's Diary. Project and research works, details of publications, etc can also be entered in the Teachers Diary. The Teacher's Diary is verified by the concerned Head of the Department and countersigned by the Principal. The register to monitor academic delivery documents the status of classes engaged hourly. A degree programme has Common, Complementary, Open and Core courses engaged by teachers from different departments. The class teachers maintain the register and document the hourly status of classes with the help of the class monitor. On the competition of the 5th hour the monitor hands over the register to the class teacher who in turn will verify the movement of classes and syllabus. The Head of the department will verify the register on a weekly basis

and the same is countersigned by the Principal. 1.5. Evidence of Success: The Teacher's diary is very useful for faculty member to evaluate his or her academic work. Since it documents all the academic activities performed by a teacher, it is very useful for the semesterwise evaluation of the work. The faculty members prepare self appraisals with the help of Teacher's Diary. The Teacher's Diary can also be used as a document for submission for promotion under the career advancement scheme. The Academic Performance Indicators (API) are verified by the Principal on the basis of the records presented in the Teachers Diary. The Screening Committee constituted by the University to evaluate the proposals for promotion also reviews the API scoresheet on the basis of the Teachers Diary. The register to monitor academic delivery is very effective in monitoring, cross checking and evaluating the engagement of classes in the backdrop of the credit and semester system and semester-wise teaching plan. The class teacher is able to monitor the progress and completion of syllabus with the help of it. The class teacher can infer the requirements for additional classes and inform the HoD and Principal about the matter. Initiatives made by the faculty for the completion of the syllabus in a time bound manner indicate the success of this practice. 1.6. Problems Encountered and Resource Required: The practice has been successfully implemented without encountering any major problems. 2.1 Title of the practice: Strong ties with Alumni 2.2 Objectives of the practice: Established in 1952, the College has completed a period of sixty six years in the area of higher education. Over this period, nearly 70,000 students have successfully completed their programmes of study. The College maintains strong and vibrant ties with the former students who have formed alumni chapters in different regions of the country and also in some foreign nations. The main objectives of having such a strong link with the alumni include Page 101/123 15-08-2019 12:48:14 Self Study Report of MAR THOMA COLLEGE, TIRUVALLA To promote a sustained sense of belonging to the Alma Mater among the Alumni by being in regular contact with them To utilize the rich experiences of former students of the college for the benefit and progress of the present students Develop alumni programmes that foster fellowship among alumni and encourage the physical, moral, and spiritual growth of the College 2.3 The Context: The Alumni are one of the main stakeholders of the College, who can render valuable assistance to the academic and infrastructure development. They represent the College in the community. Rich in experience, exposure and resources, they are dynamic and enterprising and enjoy prestigious positions in different walks of life. Since they have a sense of belonging to the Alma Mater, the College has keen interest in engaging with them. Their willingness to share the experiences, skills, guidance and resources with the institution encourages the College to maintain a strong relationship with them. 2.4 The Practice: The College has an active Alumni association with chapters in different cities of the State including Thiruvananthapuram, Ernakulam and Tiruvalla. The Alumni association has also chapters in cities like New Delhi, Mumbai, Chennai and Bangalore. The Alumni chapters are also active in Middle-East countries such as Doha, Kuwait, Bahrain and Dubai USA and Canada. The chapters regularly organize meetings and conduct celebrations such as commemoration day of the College, national festivals, etc. The College alumni association organizes two meetings every year- on 26th January and on 15th August. The General meeting of the Association is organized on 26th January every year to transact business such as adoption of annual report, annual accounts, election of office bearers etc. The keynote address of the meeting is often delivered by a prominent alumnus. Alumni, students and faculty achievers are felicitated on the occasion. Experience sharing with the student community and discussions on opportunities available in their respective fields are also notable programmes of the meeting. On 15th August every year, the family get together of the alumni association is organized. Cultural programmes are also conducted on the occasion. The meetings of the alumni chapters are organized in the respective centers and reports of the same are forwarded to the College.

The annual 'Alumni Newsletter' is the publication of the Alumni association of the College. It contains a brief report of the activities organized, programmes held, and reports of the alumni chapters and also the audited statement of accounts of the association. The alumni association offers scholarships for meritorious students. Citations and awards are given to student and faculty achievers in the annual general meetings of the association.

2.5 Evidence of Success: The cordial relationship maintained by the alumni with the College and their frequent visits to the College reveal their strong relationship with the Alma Mater. This has fostered a sense of belonging which is evident from the reunions organized by the Alumni. The 1965-68 Degree batches organised their golden jubilee reunion on 27th January 2018, with a participation of 220 Alumni members. They also staged the play titled Ellolam illa poli vachanam, the same play they staged 50 years back, on 15th August 2018. The 1966-69 Degree batches also organised a similar reunion Page 102/123 15-08-2019 12:48:14 Self Study Report of MAR THOMA COLLEGE, TIRUVALLA on 8th February 2019. The preparations are under way for the golden jubilee reunion of 1967-70 Degree batches and the last Pre-Degree batch of 1999-2001 announced their reunion on 27th July 2019. The Alumni who are in different walks of life deliver lectures when they visit the College. The Bhatnagar Awardee Dr. George Thomas, Dr. Shiny Varghese (Duke University, USA), Dr. Thomas Kurien (Inventor of Mobile Phone Caller Id), Dr. Dhanya G Nair (Member of the Team that made the first ever image of Supermassive Blackhole), Sri. Kaviyoor Sivaprasad (renowned Film Director, Script Writer and National Award winner), Mr.Siddharth Sivaprasad (renowned Film Director and National Award winner), Sri. Blessy Iype Thomas (renowned Screen Play Writer and Film Director), Ms. Nayanthara (renowned film actress), Ms. Mariamma Koshy (Former National Captain and President, Hockey India), etc are some of the prominent Alumni members who visit the College to share their thoughts and experience with students and to motivate them. The contributions made by the Alumni to the infrastructural development of the College represent their concern and affection for the College. During the Golden Jubilee Celebrations in 2001-2002, the Alumni contributed an amount of over Rupees 2 crores for the construction of the golden jubilee block that houses the seminar hall, DST-FIST lab, E-learning room and the College library. A tower block which houses Dr. C.T John Centre for Research in Mathematics and a career counseling centre has been constructed with the Alumni contribution in 2016-2017. The stage in the auditorium was renovated and the facilities in the seminar hall were improved with contributions from the Alumni.

2.6 Problems Encountered and Resource Required: The main problem of having ties with the Alumni is the formation of chapters in different centers due to absence of uniformity in the working conditions and the nature of work. The absence of a permanent office for Alumni association in the College is also a constraint.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

The College offers 12 Undergraduate, 10 Postgraduate and 7 Doctoral Degree Programmes. The College imparts employable skills through Academic Enrichment Programmes, Certificate Courses and Life Skill Enrichment Programmes. The thrust area of the College is the teaching-learning process with a focus on moulding students with ethical and moral integrity and values. Page 103/123 15-08-2019 12:48:15 Self Study Report of MAR THOMA COLLEGE, TIRUVALLA Several initiatives have been made to make the teaching- learning process more effective, meaningful and qualitative. A distinctive mechanism has been

developed to ensure academic delivery in a time bound and systematic manner. At the very beginning of the teaching- learning process, the knowledge level and comprehension ability are identified through a composite mechanism including Entry Level Assessment Test (ELAT) to classify students into slow and advanced learners. Special attention is given to slow learners by providing them with additional learning materials and advanced learners are guided to higher levels of progression. The College provides academic freedom and encouragement to faculty members to innovate new methodologies of teaching to enhance the quality of teaching- learning process. It has led to the following initiatives: creation of websites for online communication with students. Submission of assignments, term papers, etc are made through the website. Learning materials are also provided through this system. formation of students' class-wise whatsapp group for academic purpose. peer teaching has been successfully implemented in some UG and PG classes. publication of the PG research journal. The College encourages students to apply for internship in reputed academic and research institutions. Faculty members function as supervisors for such initiatives. Students are also encouraged to attend academic conferences, training programmes and other academic activities organised by different institutions. The collection of structured feedback mostly through the online mode provides a mechanism for the evaluation of the effectiveness of the teaching learning process. Institutional support for learning such as scholarships, freeships, noon meal scheme, book bank, awards and citations to meritorious students, reprographic and Net facility are also provided by the College for the promotion of the learning process. The College has therefore embarked on an inspirational journey to academic excellence.
